Sir,

With reference to G.O.No 1941 Law (Education Department dated 18-9-29, I have the honor to state as follows, and request that in the light of the circumstances herein stated the orders may kindly be reconsidered as a special case with particular regard to the dire poverty of the Board.

2. For more than 15 years the season has been throughly bad on account of failure of ~~xxxxxxxx~~ rains and untimely monsoons. The economic condition of the villagers is very low and anything but satisfactory.

3. The villagers are in bare justification of the cess extracted from them, entitled to a measure of benefit from the Board which is bound to provide the needy services like education. The sources of income though few and scanty are hardly enough to keep the existing machinery of the Board in a working condition.

4. The poverty of this Taluk Board is proverbial. The growing strength of schools demand the sanction of additional teachers, the opening of the higher grade standard is satisfied with employment of secondary grade teachers in time.

To provide for these improvements the Board is not in a position to bear the costs It is therefore submitted that the Government should in such circumstances grant subsidies to the Board to materialise the proposals chalked out for the diffusion of Elementary Education Out of a population of 159910 under the Board hardly a moity of 68996 population is receiving the benefit of education.

5. A general survey of the educational needs of this area shows that there are 246 villages, out of which 41 villages have been provided with 61 schools and still there are 205 villages to be provided with schools. It is the duty of the Board and the Government to provide the means for the education of the remaining population. In this connection it should be said that the poverty of the Board does not admit of taking up the scheme for itself unless the Government lends a financial hand in the matter

6. It is gratifying to note that the Government is ever eager to help the institutions for the promotion of Elementary Education It is but right that our Board lays claims on Government aid for the diffusion of Elementary Education to the villages under its sweep.

7. The low economic condition of the tax-payer under the Board is too well known. The incessant visitations of plague and the disappointing seasons have taken away the rood from the villager and the least additional taxation will make him collapse

8. In the light of the facts told it is but fair that the Government should kindly revise the order and favour the Board with the subsidies to meet the growing needs of the schools. I have to submit that this Board should not be viewed from the point of sister well-to-do Boards of the Presidency. Our Board has hardly enough resources to keep the present establishment in a working order. I therefore submit that the Board is not in a position to answer the fresh indents to provide for the diffusion of Elementary Education . Hence, this request for kind reconsideration of the order already passed.

I have the honor to be,

sir,

Your most obedient servant
